NULON

MOTORCYCLE COOLANT PREMIX (MCC)

Nulon Motorcycle Coolant Premix is a biodegradable, low toxicity, propylene glycol-based premixed engine coolant. Formulated with advanced Organic Acid Technology (OAT) and 50% distilled water, it is free from nitrites, silicates, borates and phosphates and provides optimum anti-freeze/anti-boil engine protection. It is suitable for use in all motorcycle engines, especially those containing the latest magnesium alloy technology.

Benefits

- Prevents cavitation
- Maximum anti-freeze/anti-boil protection
- Provides excellent corrosion resistance
- · Compatible with all hoses, gaskets and seals
- · Long service life
- · Environmentally friendly

Applications

Nulon Motorcycle Coolant Premix is recommended for use in all motorcycle vehicles that use a pink, purple or red or orange coloured coolant. Nulon Motorcycle Coolant Premix is principally designed for use where OAT coolant is required. It is particularly suited for use where AS/NZS 2108.1:2004 Type A, VW G12Evo or Toyota LLC specifications are cited. Use in all cooling systems as a replacement for any pink/purple coloured coolant. Among specific makes of vehicles that use pink/purple coolant are Volkswagen, Mercedes-Benz, Toyota, Audi and Chrysler.

Physical Properties

Property	Motorcycle Coolant Premix	
Density (g/ml at 20°C)	1.05-1.08 g/cm3	
Freezing Point (50% v/v in water) °C	-18	
Boiling Point (undiluted) °C		
Boiling Point (50%v/v in water) °C	124	
Reserve Alkalinity (ml)		
Glycol content (grams per litre)		
pH (50% v/v in water)	7.6-8.0

Safety Directions

NOTE: Refer to your motorcycle or equipment service manual for correct lubrication requirements and service intervals.

WARNING: Combustible liquid.

SAFETY: Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Wear protective gloves/protective clothing including eye/face protection.

FIRST AID: Avoid contact with skin and eyes. If contact occurs, wash thoroughly with soap and water. For advice, contact a Poisons Information Centre (e.g. phone Australia 13 11 26; New Zealand 0800 764 766) or a doctor (at once).

ENVIRONMENT: Do not pollute drains, soil or water with used products. After use, dispose of container in a responsible manner.

Do not dispose of to landfill. Disposal of container should comply with local council regulations.

Recommended where the following manufacturer's specifications are cited

- Australian Standard AS 2108.1-2004 Type A
- British Standard BS 6580:2010
- ASTM D3306
- China Standard GB 29743-2013
- Military Belgium MIL-BT-PS-606 A
- NATO S-759
- Korean Standard KS M 2142:2014
